

OPERATION

The Ruelco RA-2 Spring Accumulator is designed to provide an independent energy source for any low-pressure application. The 316 stainless steel construction allows for high corrosion resistance in harsh environments. The honed bore and wear ring allow for a smooth stroke, maximizing the total amount of life cycles. The simple design of the RA-2 can be disassembled and cleaned without the need for special tools.

FEATURES

- Stainless steel construction (N.A.C.E. model available)
- Precision honed bore to increase lifespan
- T-seal and back-ring piston assembly
- Spring allows for reliable charge
- Simple operation allows for easy maintenance

OPERATION

The Ruelco RA-5 is a piston type accumulator that provides a mean for regulating the performance of a hydraulic system. It is suitable for storing hydraulic energy under high pressure, absorbing hydraulic shocks and dampening pump pulsation and flow fluctuations. The 316 stainless steel construction allows for high corrosion resistance in harsh environments. The honed bore and wear ring allow for a smooth stroke, maximizing the total life cycle. The simple design also allows the RA-5 to be disassembled and cleaned without the need for any special tools.

FEATURES

- 316 stainless steel construction (N.A.C.E. Model Available)
- Precision honed bore to increase lifespan
- T-seal and back-up ring piston assembly
- Schrader valve allows safe charge and discharge
- Simple operation facilitates maintenance

OPERATION

The Ruelco RA-5L is a piston type accumulator that provides a mean for regulating the performance of a hydraulic system. It is suitable for storing hydraulic energy under high pressure, absorbing hydraulic shocks and dampening pump pulsation and flow fluctuations. The anodized aircraft grade aluminum construction allows for high corrosion resistance in harsh environments. The honed bore and wear ring allow for a smooth stroke, maximizing the total life cycle. The simple design also allows the RA-5L to be disassembled and cleaned without the need for any special tools.
